Pearl 260 "smooth lustre duo"

Double-sided portrait photo paper

Professional high white portrait photo paper with elegant lustre gloss effect. A paper that can be printed on both sides for outstanding image quality without reflections, for example, in photo albums. The velvety lustre surface refines the image output on a modern double-sided photo paper that is almost insensitive to mechanical abrasion and fingerprints.

magic

PMC 250 BW "prisma"

Bright white photo paper with structure

Silk gloss, bright neutral white photo paper with microporous coating and a clearly structured silk screen surface refinement.

This characteristic prism surface structure makes scanning and copy reproduction more difficult. This special paper is often used for portraits, industrial and technical image motifs and is characterised by its extensive colour space with perfect contrasts.

SIP 260 Silver Iridium Pearl

Photo paper with pearlescent effect

Silver iridescent photo paper, which emphasizes the effect of metallic picture elements impressively and uniquely. Jewellery, industrial motifs and portraits are particularly striking thanks to their high density and maximum colour space. The fascinating metallic effects and an iridescent shimmer on this extraordinary pearl photo paper will win you over.
